

MediExcel Now Offers Virtual Care Services

Digital technology is making it easier for healthcare professionals to communicate with their patients, breaking down the barriers that can impede a patient's access to medical care. With MediExcel Health Plan you can now schedule virtual care video or telephone consultations from the comfort of your home or office, accessing care where and when you need it.

Our new virtual services provide a direct connection to a primary care physician, a pediatrician, or an obstetrician. If medically necessary, you may also be referred for a virtual consultation with a specialist.

No traffic. No waiting rooms. No copay.

Virtual care appointments are available Monday through Sunday, from 8:00 a.m. to 8:00 p.m

To schedule your consultation, please call the **Member Line** at **(619) 365-4346** option 3, or **(664) 633-8555** option 3 when dialing from Mexico.
